

LAWN STARTER™ PRO

SEED ESTABLISHMENT GRANULES

DESCRIPTION

Lawn Starter™ Pro is a granular mulch made from recycled paper that contains ENCAP®'s Advanced Soil Technology™ which is a blend of soil stabilizers designed to improve soil conditions.

The granules are blended with ENCAP®'s Seed Watering Guide™ to optimize water utilization during seed establishment.

Lawn Starter™ Pro can be used for projects of all sizes from seeding residential lawns to repairing small areas.

APPLICATION INDEX

SLOPE*	LBS./1,000 sq. ft.
No Slope - 4:1	25 - 50
Greater than 4:1	Use PAM-12™ Plus

- Application rates and methods may vary based on site conditions such as slope, soil type, physical state and chemical properties of the soil and time of year.
- Application rates can be adjusted for desired visual appearance.
- Lawn Starter™ Pro granules are activated by natural or applied moisture.
- It is recommended that seeding is done prior to the application of Lawn Starter™ Pro and in a manner that ensures direct contact with the soil on a well prepared seedbed.

*Slope ratio based on Run over Rise

COMPOSITION

Lawn Starter™ Pro

SOIL AMENDING GUARANTEED ANALYSIS

ACTIVE INGREDIENTS:

Gypsum (CaSO ₄ -2H ₂ O)	10%
3.1% Polymers	
0.6% Anionic Polyacrylamide Copolymer (Emulsion)	
1.5% Anionic Polyacrylamide Copolymer (Linear)	
1.0% Anionic Polyacrylamide Copolymer (Cross-linked)	

INERT INGREDIENTS:

Paper Mulch	86.9%
